

Junior Professor Chair in Neurosciences and Behavioral Economics at the University Paris 1 Panthéon-Sorbonne

The Université Paris 1 Panthéon-Sorbonne is offering a **Junior Professor Chair position** in Neurosciences and Behavioral Economics to begin in September 2022 for a period of five years. The position will be hosted by the [Centre d'Economie de la Sorbonne](#). Following a successful tenure review, the junior Professor will then be offered a permanent, full Professor, position at the University Paris 1 Panthéon-Sorbonne.

Scientific themes: behavioral economics, experimental economics, cognitive sciences

Institutional Context

The University of Paris 1 aims to encourage synergies between disciplines and to strengthen the impact of human and social sciences on society. The Junior Professor Chair in Neurosciences and Behavioral Economics is fully in line with this strategy by proposing a multidisciplinary approach at the crossroads of economics, psychology and cognitive sciences to better understand behavior and decision-making in economics.

The [Behavioural Sciences team](#) at the Centre d'Economie de la Sorbonne includes theoretical and applied microeconomists and cognitive psychologists, with a strong experimental culture, which has developed around the Laboratoire d'Economie Expérimentale de Paris and the new Laboratoire d'Expérience en Ligne, co-managed within the framework of the Fédération S2CH. The research is both fundamental and with an applied dimension.

Eligibility

We are looking for applicants who:

- hold a PhD
- have a strong background in both economics and cognitive science or neurosciences
- who has proven research abilities in behavioral sciences
- with international experience
- and with technical and experimental skills (e.g. functional imaging, EEG, etc.)

Research Project

The junior Professor will work together with the Behavioural Sciences team at the Centre d'Economie de la Sorbonne to better understand the links between cognitive processes (eg, motivation, emotion, anticipation) and economic decision-making. The project will rely on an interdisciplinary approach combining psychology, economics and neuroscience, and quantitative research methods (e.g. experimentation, data analysis or machine learning). The junior Professor is expected to play a leading role in this project, in doctoral training and in funding applications related to this project (ANR, ERC, etc.).

Teaching

The junior Professor will be offered a reduced teaching load (96 hours TD equivalent). Part of her/his teaching will be carried out in the Master in Economics and Psychology jointly managed by the University of Paris 1 and Université Paris Cité and supported by the Paris School of Economics.

In order to carry out the research and teaching project, the Chair will be financed for the duration of the period with €275,160 for 5 years (or €220,128 for 4 years) for the remuneration of the Chairholder, €128,000 for the funding of post-doctoral students, and €102,000 for research.

How to apply?

Online applications via [Galaxie](#) should be received **by May 21, 2022**. Applicants would need to send:

- the following [application form](#)
- a copy of their published papers
- a copy of their diploma
- a copy of their national ID

Reference letters should be sent **by May 21, 2022** at dirces@univ-paris1.fr

Timetable

21 May 2022 at the latest: deadline for submitting the application via [Galaxie](#)

3 June, 2022: selection of applications

3 June - 23 June 2022: online public seminars

24 June 2022: interviews

As of September 2022: recruitment

Recruitment procedure

A committee will check that each candidate meets the eligibility criteria. After careful consideration, selected candidates will then be invited to give a public seminar (online in English). During its first meeting, the selection committee will also define the modalities of the auditions and inform the selected candidates about these modalities.

Selected applicants will then be contacted for interviews, preferably on-site.
